

**DTS**<sup>®</sup>

Newsletter

January 2008

### **Update:**

In 2008, access to DTS will grow significantly as more and more banking institutions either adopt for the first time, or expand service to additional vault locations. This will allow more retailers to pilot or go “live” on DTS this year.

If in the past you were discouraged by bank participation, please reach out to your banking representatives for more information. Please contact us if you need assistance and we will gladly facilitate conversations with bank contacts and/or DTS users who can give you detailed information regarding bank participation.

---

### **Did you know...?**

IFS just added a new module to DTS that allows retailers, at the store level, to place Change Orders online as well as track Change Order status along with the chain of custody (received and verified by your location).

---

### **What users are saying about DTS...**

- Treasury Department: “...provides performance reporting of armored personnel”
- Sales Audit: “...on-line real time access to deposit adjustment notices”
- Cash Accounting: “...real time notification for unusual deposit activity”
- Loss Prevention: “... a central source for all store deposit information”
- Cash Room: “...automatic e-mail notification of critical deposit issues such as deposit adjustments and deposits less than normal”

Click on the link below and see for yourself how DTS can benefit your company.
